

AMIR TEJAREH

Full-Stack Developer

Summary

Full-Stack Developer with 7+ years of experience building scalable web applications using React, Next.js, TypeScript, and Node.js. Proven experience in frontend architecture, REST API integration, backend development, and performance optimization. Based in Düsseldorf, authorized to work.

Technical Skills

Frontend:

React, Next.js, TypeScript, JavaScript (ES6+), Vue.js

Backend:

Node.js, Express.js, REST APIs, API Integration

Databases:

PostgreSQL, MongoDB, MySQL

Web:

HTML5, CSS3, Tailwind CSS, Responsive Design, Accessibility (WCAG)

Testing & Tools:

Jest, MSW, Git, Docker, CI/CD, Vercel

Experience

03.2025 - 02.2026

Frontend Developer

Kian Financial Group

- Developed high-performance web applications using React and Next.js, reducing page load time and improving overall user experience.
- Optimized Next.js application performance, improving load times by approximately 40%.
- Collaborated with backend, QA, and product teams to deliver scalable features and improve system performance across multiple modules.
- Integrated REST APIs into scalable frontend architectures, supporting dynamic data-driven interfaces.
- Implemented unit tests with Jest and API mocking using MSW to improve frontend reliability during backend downtime.
- Applied accessibility standards (WCAG) to enhance usability.

03.2025 - 10.2025

Full-Stack Developer (Remote, Part-time - Canada)

CELPiP Practice Test

- Developed and maintained a scalable full-stack SaaS platform for exam preparation using Next.js, TypeScript, and Node.js.
- Built interactive learning modules and online test interfaces used by 100+ learners during exam preparation.
- Collaborated across frontend and backend layers to deliver scalable SaaS features and improve platform maintainability.
- Improved application performance and scalability through caching, code splitting, and frontend optimization techniques.
- Managed deployment and production environments using Vercel, ensuring reliable and stable releases.
- Applied accessibility standards (WCAG) to enhance usability.

03.2024 - 03.2025

Full-Stack Developer

Daric Data Processing

- Developed multilingual, responsive web applications using Next.js, TypeScript, and Tailwind CSS.
- Implemented frontend features integrated with backend services and REST APIs.
- Improved UI consistency and usability across multilingual interfaces, enhancing overall user experience.
- Optimized performance and accessibility following modern best practices.

03.2024 - 03.2024

Frontend Developer

Asa Co

- Contributed to frontend architecture decisions and supported the implementation of banking dashboards using Next.js and TypeScript.
- Optimized user interfaces for performance and usability.

03.2022 - 03.2024

React Developer

Hafez Brokerage

- Optimized performance and modernized a PWA to improve load speed and user experience.
